

Resource management is a priority for every business. Knowledge of resource location and employee accountability are the keys to reducing lost and stolen property. Tracking resources manually is both time-consuming and ineffective. With Electronic Charge's Check In/Check Out system, the process is simple and efficient. Our asset tagging and database technology give you control of resources and their due dates. Eliminate waste and confusion with the Check In/Check Out system from Electronic Charge.

## TRACK YOUR RESOURCES

## CATALOG YOUR RESOURCES
